

How I became a team manager

Abid Ali is the Registered Manager of Eden Future. His journey to team manager is summarised below.

“My current role of team manager sees me managing a team of currently 25 staff in a supported living service.

“If you’re putting somebody into managing a care service, they have got to have some experience of working in the front line. It was important for me to directly deliver care and have this experience in the support worker role prior to moving into management.”
